

Wireless CarPlay & Android Auto

Questions? Message your host in the app.

STEP 1 | Open CarPlay / Android Auto

The car starts on the Range Rover's own screen.

- ◆ Press **NAV** on the right side of the screen, or tap **Navigation** on the Range Rover home menu, to open CarPlay / Android Auto.
- ◆ To go back to the Range Rover menus, press **HOME MENU** on the left side of the screen.

NOTE The Range Rover's built-in navigation is not available. Use Apple Maps, Google Maps or Waze in CarPlay / Android Auto.

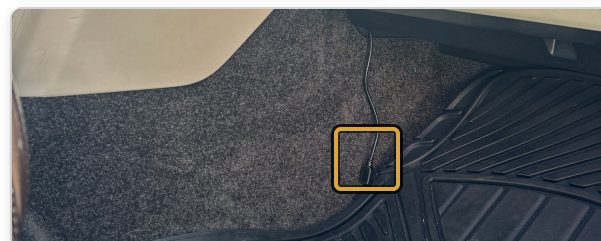

STEP 2 | Connect your phone (first time)

WIRELESS

- 1 On your phone, turn on **Bluetooth** and **Wi-Fi** (no need to join a network).
- 2 On the car screen, tap **CarPlay** or **Android Auto**. Both are enabled by default.
- 3 On your phone, open Bluetooth settings and tap *** CAR-6455**.
- 4 Check that the code on your phone matches the code on the car screen, then tap **Pair**.
- 5 Tap **Use CarPlay** or accept the Android Auto prompt.

WIRED

- ◆ Plug your phone into the **USB port in the passenger footwell**, next to the center console.
- ◆ Use a good **data** cable, not a charge-only one. CarPlay or Android Auto starts automatically.

STEP 3 | Get sound through the speakers

The car's audio source must be **AUX**.

- ◆ Press **MODE** on the steering wheel or on the right side of the screen until **AUX** shows, or
- ◆ Press **AUDIO VIDEO**, tap **Source**, then tap **AUX**.

STEP 4 | Voice & calls

- ◆ **iPhone (Siri):** press and hold the CarPlay **home button** at the bottom left of the screen.
- ◆ **Android (Google Assistant / Gemini):** tap the **microphone** icon on the screen, or say "Hey Google".
- ◆ **Calls:** go through CarPlay / Android Auto. Don't also pair with the Range Rover's own Bluetooth.

Good to know

- ◆ **No sound?** Check that the car's audio source is set to **AUX** (step 3).
- ◆ **Steering-wheel buttons** change the volume and skip tracks.
- ◆ **Paired with the Range Rover's own Bluetooth?** Choose **Bluetooth** as the source (step 3) for audio. CarPlay / Android Auto won't handle calls.
- ◆ **Please don't change any settings** (Setup, AirPlay, AutoLink) without asking your host first.
